

Technical Operator (m/f/d)

Description

Please note that the main language of this job offering is German!

Are you passionate about cutting-edge technology and eager to make a real impact in the semiconductor industry? Join Bluetest Testservice GmbH as a Technical Operator and be a key player in ensuring the quality and reliability of high-tech circuits. In this role, you will conduct essential electrical tests, manage state-of-the-art testing systems, and solve complex technical challenges in a collaborative and innovative environment. Whether you're an experienced professional or a recent graduate, we offer a supportive workplace where your skills and enthusiasm can thrive.

About us

At **Bluetest Testservice GmbH**, we are a small, well-coordinated team of experienced, inventive, and experimental testing experts. Our mission is to perform electrical testing of semiconductor chips in wafer form or packaged components. We excel in meticulously planning and executing tests on our COHU D10 testing systems or custom measurement setups tailored to specific projects. Our work ensures reliable high-tech circuits for applications demanding the highest quality standards. Our ultimate goal is to achieve highly satisfied customers and foster sustainable, stable growth.

Now is the perfect time to join our team!

Key Responsibilities

- Planning and conducting electrical tests and measurement series
- Operating and configuring test equipment (handlers, wafer probers, testing systems)
- Analyzing and resolving malfunctions
- Maintaining and monitoring testing systems and laboratory equipment

Your Qualifications

- Skilled worker or technician in information technology, electronics, semiconductor technology, or related fields
- Open to recent graduates! Familiarity with Windows, Office programs, and Linux operating systems is a plus
- Proficient in German and English
- Quick learner with enthusiasm for independent work in a small team
- Customer-oriented mindset and strong focus on quality

What we offer

- Competitive salary
- Holiday bonus
- Flexible working hours
- 30 days of annual leave
